HKBUAS 20th Anniversary Gala: Celebrating Two Decades of Educational Excellence

On the evening of September 13, 2025, we celebrated our **20th Anniversary Gala Dinner** at the **Regent Hong Kong**. Nearly 500 guests from political, business, legislative, and educational sectors, along with parents and students, gathered to commemorate the school's remarkable milestone.

Chief Secretary for Administration, Mr. Chan Kwok-ki, GBS, IDSM, JP, and the **Chairman of Hong Kong Baptist University Council and the Court, Dr the Hon Kennedy Wong Ying-ho, BBS, JP**, delivered inspiring speeches, praising our school's dedication to whole-person education and encouraging students to become future pillars of society.

Our **School Supervisor, Professor Frank Fu Hoo Kin, BBS, MH, JP**, reflected on the journey, "Twenty years is brief for a school, yet we've achieved the miraculous – becoming a renowned institution while competing with century-old schools." He credited this success to the collaborative efforts of staff, community support, and outstanding student performance.

Secretary Chan commended the school's unique through-train model and its commitment to nurturing innovative talents with global perspectives. "Students not only achieve academic excellence but also develop deep-rooted national pride through various exchange programmes and unique learning experiences," he praised.

Dr Wong shared touching founding stories, recalling the late Mr. Wong Kam Fai's generous support and the university's long-held vision. "We started with humble facilities but possessed the most valuable asset – passionate educators," he reminisced.

Chief Principal, Dr. Benjamin Chan Wai Kai, MH, reaffirmed the school's commitment to holistic education: "We aim to cultivate well-rounded leaders with strong character and international vision, always putting students first."

The celebration featured an exciting charity auction and a wide array of stunning student performances, including the multi-award-winning choir piece "如畫般的天際", alumni duet, vocal solo, and Chinese Dance, showcasing the school's excellence in arts education.

政務司司長陳國基先生蒞臨主禮

主禮嘉賓香港浸會大學校董會暨諮議會主席
黃英豪博士曾任本校首屆校董

校監傅浩堅教授

總校長陳偉佳博士

6C 謝胡瞳

感謝學校讓我能够參與這個隆重而溫馨的「大家庭聚會」，當天嘉賓如雲，美輪美奐的場景讓我大開眼界！

7C 吳子樂

我衷心感謝學校給予寶貴機會，讓我得以見識各界嘉賓、拓展視野。能够參與二十周年晚宴並分享在校的點滴與成長，更是別具意義。謹此祝願學校生日快樂！

11A 張芊穎

很榮幸能以學生大使的身份出席學校二十週年晚宴，親眼見證學校二十年來的發展與成就，令我深感自豪與驕傲！

11A 羅芊廷

衷心感謝學校的信任，在眾多優秀同學中委以我擔任晚宴司儀。這次經歷令我獲益良多，亦深感榮幸能親身見證學校的輝煌時刻。未來我定當繼續努力，不負學校厚望！

王沛芝女士頒發獎學金

羅范椒芬女士GBM, GBS, JP
擔任主禮嘉賓致辭

The **School Re-opening and Thanksgiving Ceremony** on September 2, 2025 was an event of exceptional significance, formally launching the celebrations for our 20th anniversary. The atmosphere was exhilarating with a profound sense of history and community spirit.

We were profoundly honoured to host **Mrs. Fanny Law, GBM, GBS, JP as our Guest of Honour**. Her presence held deep symbolic meaning, creating a powerful link between our past and present. As the distinguished individual who witnessed the laying of our school's foundation stone two decades ago, she has been a constant witness to our growth and development, making her participation in this milestone especially meaningful.

In a heartfelt spirit of gratitude, we expressed our profound appreciation to our generous donors and our dedicated Parent-Teacher Association. Their unwavering support and significant contributions have been instrumental in establishing various scholarship programmes that recognise the hard work and excellence of our high-achieving students, inspiring all to strive for greater heights.

Our School Supervisor, Prof. Frank Fu, BBS, MH, JP, encouraged everyone with his inspiring words: "Our school has just reached its 20th anniversary milestone. You, our students, will have many more milestones to reach in your future. I wish you all the very best in the years ahead." As we look forward, we are filled with optimism and excitement for the future, ready to build upon this legacy and celebrate many more collective achievements in the journey ahead.

The 20th anniversary also meant another milestone to our long service staff. Their dedicated service was celebrated with a presentation of 20-Year Service award during the ceremony.

胡臻霖早稻田大學校長推薦計劃獎學金與生物及胡臻霖醫療科技升學獎學金得獎者

家長教師會成員頒發家愛翱翔獎學金

陳偉佳博士, MH Dr. Chan Wai Kai, Benjamin, MH
總校長 Chief Principal

The 20th anniversary is a deeply emotional and meaningful milestone. Reflecting on two decades of dedication, growth, and shared dreams, I am profoundly grateful for the unwavering support of our staff, students, and the wider community. Together, we have built more than a school—we have built a legacy of learning, character, and values. Looking to the future, my hope is to see our school continue to evolve as a place where innovation thrives, where young minds are inspired to dream boldly, and where compassion and excellence remain at the heart of all we do. This journey is only the beginning, and I look forward to shaping an even brighter future together.

服務二十周年教職員分享

陳佩柔老師 Ms. Chan Pui Yau
副校長(小學部) Vice Principal (Primary Division)

二十載歲月荏苒，不僅是時間的累積，更是信念的凝練。回首這漫長旅程，點滴皆是感動與堅持。秉持教育理想、見證學生成長是最大的欣慰。感恩每一位同行者的扶持與陪伴，讓我在挑戰中砥礪成長，見證學校的卓越成就！

陳麗君老師 Ms. Chan Lai Kwan, Katherine
宗教教育主任 Head of Christianity Education

Shalom! 滿心感恩，有幸見證學校廿十年的偉大輝煌發展，看到神對A-School莫大祝福：由校董會、管理層、慈善家、第一城浸信會、家長及老師團隊，多年盡心竭力培育莘莘學子，按他們的獨特才華，致力培育多才多藝、肩負家國情、胸懷普世的年青才俊。

李頌慈老師 Ms. Li Chung Chi, Yvonne
普通話及非華語學生支援統籌
Coordinator of Putonghua and NCS Support

自創校伊始，廿載春秋與校同行，點滴歲月，銘記於心。值此雙秩誌慶，心懷感恩，亦寄遠望。願攜手並進，共譜教育華章。

單慧嫻女士 Ms. Sin Wai Han, Catalles
公關傳訊主管 Head of CPRO

由第一天黃色暴雨警告開學，看著可愛的中一學生與更可愛的小一至小三學生一起在同一個校園上學；翌年中學部校舍啟用，之後到新大樓及更新的康體游泳大樓落成，我兩個女兒在這裡度過了非常開心而充滿意義的中小學生活，非常感謝校監及總校長給我見證學校和女兒成長的機會！

林家寶老師 Ms. Lam Ka Po, Angela
資訊科技科老師 Information Technology
Subject Teacher

Working in A-School for 20 years has been a rewarding journey of growth and transformation. I've witnessed the evolution of the school from a construction site into a well-equipped modern education and learning hub. It has been transformed from chalkboards to cloud computing. Guiding students through digital literacy and coding with AI has been both challenging and inspiring. Each year brings new faces, fresh ideas, and evolving tech trends. A-School has become a dynamic space where creativity meets innovation. Over two decades, I've not only taught but also learned—adapting, mentoring, and growing alongside my students. It's a career filled with purpose, progress, and pride.

蕭麗歡女士 Ms. Siu Lai Foon, Debbie
校役 Janitor

感恩與學校共同成長，見證無數師生的努力與成就。展望未來，我期望學校繼續以創新精神，以關愛文化培育英才，在下一個二十年再創高峰，發光發熱！

Whole School Collaborative Word Art

This project stood as a powerful testament to our community's unity. It provided a unique and engaging platform that brought students and teachers together in a shared, legacy-building endeavor. By contributing collectively, every participant helped weave a vibrant tapestry of our shared identity, visibly demonstrating their pride as members of the A-School family. This collaborative spirit was the heart of the project, profoundly strengthening our bonds and fostering a deep, collective joy. It was a beautiful celebration of togetherness, designed to inspire a lasting sense of belonging as we looked toward our future, united.

20th Anniversary Memorabilia Collection

To mark our 20th Anniversary milestone, the **Parent-Teacher Association (PTA)** has been supporting celebratory activities and has curated a line of exclusive memorabilia. These keepsakes are designed to become treasured mementos, valuable tokens of our shared history that will grow more precious with time. Supporting this initiative also serves a greater good, as **all proceeds will be directed to the PTA's "WeHome Fund"** to support student and school development.

The limited-edition collection includes:

- HKBUS Special Edition Monopoly
- Memorigin 20th Anniversary Tourbillon Watch
- 20th Anniversary Stamp Book
- Alumni-designed Lamp
- 20th Anniversary Commemorative Pin

The Story of Our 20th Anniversary Logo

Designed by our talented **Grade 9 student, LI Guo Tong Audrina**, this 20th Anniversary Logo is a masterful blend of symbolism and school spirit. At its heart, the design ingeniously integrates a hidden infinity symbol within the prominent "20," representing the boundless potential and limitless future that awaits every A-School student. The logo's elegant execution is brought to life through our signature blue and orange hues, which reflect the vibrant and dynamic community that defines our school. More than just a commemorative emblem, this design powerfully celebrates our ongoing journey of continuous growth, the endless opportunities we create, and the collective achievement of two decades of excellence. It stands as a beautiful tribute to our past and a promising vision for the future.

9D 李愷彤

我的設計能獲選為學校二十周年校慶的一部分，並應用於各項慶祝活動，我為此感到榮幸之至。

More Celebratory Activities

Join us in commemorating our 20th anniversary with a **year-long celebration from September 2025 to July 2026**. We have curated a spectrum of events to mark this significant milestone.

The excitement builds through a festive Carnival, inspiring AI Symposium, and enchanting Winter Concert at St John's Cathedral, culminating in a dazzling Variety Show at the prestigious Xiqu Centre. The celebrations conclude on a high note with the 2nd Greater Bay Area Youth Model CPPCC Conference, where students will showcase their leadership on a distinguished platform.

- Music Marathon (December 18, 2025)
- Winter Concert at St John's Cathedral (January 13, 2026)
- Carnival (January 24, 2026)
- AI Symposium (March 21, 2026)
- Variety Show at Xiqu Centre (May 14, 2026)
- High Table Dinner (June 2026)
- 第二屆粵港澳大灣區青少年模擬政協活動 (July 2026)

Three-time Champion

in 40th Sing Tao Inter-School Debating Competition

May 7, 2025

The **A-School Debate Team** achieved a major milestone by being crowned **Champion of the 40th Sing Tao Inter-School Debating Competition!** This historic victory is especially meaningful as it marks the third time our school has secured this prestigious title, cementing our powerful legacy in Hong Kong's debating scene. The debate team won three championships and a 1st runner-up finish in four years.

This chapter began four years ago with KWOK Ho Wang Clement, CHEUNG Kwan Chiu, Alfred, and LIN Wing Tung, Melody. Though they started out raw—a mix of “sheer grit and beginner’s luck”—that initial taste of victory set them on an unstoppable trajectory of growth. They transformed into a resilient force, debating not just for themselves, but for everyone who believed in them.

The road was tough, including the painful 1st runner-up finish in 2024. That setback, however, became the foundation for their glorious redemption. On May 7, 2025, the team—fortified by stars like TANG Hau In (Class of 2025), LI Mischa Keona (Class of 2025) and 12A LEE Yan Wah, and—returned to the very Grand Final stage where they had fallen short. They decisively seized the championship title, receiving the trophy from Dr. Choi Yuk-lin, JP, Secretary for Education. We are immensely proud of this defining moment and look forward to the next chapter this team writes!

10B LAU Ka Ki

Our school's debating team, who performed exceptionally well in every round. My peers' commitment was admirable as they rebutted opposing viewpoints, showed excellent collaboration, and made well-researched arguments. I have since had an improved understanding of how to formulate better rebuttals and create rock-solid team cases. Witnessing this journey was inspiring and fulfilling and I hope we can continue carrying on this legacy.

10C LEUNG Yan Yuet

I really appreciate the Sing Tao debates for allowing us a platform to discuss and debate over topics relevant to Hong Kong and our daily life. The 2025 Grand Final was especially enriching and inspiring! I was able to learn from brilliant speakers and gain new perspectives on the motion.

10D REN Eva Yuwen

The Sing Tao Grand Final was one of the biggest highlights of my year. Watching the seniors master their craft behind the scenes, perfecting our floor debate lines, feeling the adrenaline rush on stage - these moments were greatly inspiring and defined this wonderful night. We are immensely proud of this victory - and we hope there will be more in the years to come.

12A LEE Yan Wah

As debaters standing on the stage of Queen Elizabeth Stadium, it was our responsibility to bring everything together - our research, the hard work of our teammates and teachers, the support of our schoolmates. The experience will forever be etched in my mind, and I would like to thank everyone for their unwavering belief in us!

Highlights of 2025 Graduates: Varied Experiences, Diverse Perspectives

CHAN Lap Chee

Current Student at Faculty of Mathematics, University of Cambridge, UK

The first week as a student in Corpus Christi College at the University of Cambridge was chaotic, exciting and exhausting. Before the term began, many talks and activities were organized to help us settle in and socialize with other peers, who were incredibly intelligent and carried many clever ideas and opinions. Finding friends was not too difficult given how inclusive everyone was. The well-rounded support systems in my college as well as the friendly staff here create a great

environment to work in.

It was definitely intimidating to hear about what Cambridge Maths was like from people who have experienced it firsthand. The lectures are intense and fast-paced, requiring your full attention to catch up. The supervisions prevent you from blindly crashing your way through, and supervisors will give personal feedback on your work. The example sheets are scary and take unbelievably long amounts of time. Despite all the obstacles that I will soon have to face, I find these challenges motivating and I will try my best to do well.

The city of Cambridge is absolutely breathtaking. With many historical buildings and famous sites dotted around, it is hard to believe that I am not just a tourist passing by. Cambridge is full of life and there is plenty more for me to discover. I am positive that I will enjoy my time here and I will make the most out of it.

KWOK Chin Yu Alison

Current Student at Department of Engineering, University of Cambridge, UK

Having been in A-School for 12 years, transitioning to a new and unfamiliar environment has been challenging yet exciting. In the short 3 weeks since my arrival in Cambridge, I have met so many wonderful people from all around the world and have been slowly adapting to the rigorous academic culture here. Getting to see the beautiful architecture (and occasionally, the college cats) on my way to lectures every day still feels surreal to me.

Just one year ago, I had just submitted my UCAS application, thinking that Cambridge University was far out of my reach. I'm immensely grateful for the support A-School has given me and for the teachers that believed in me every step of the way. The 12 years I've spent there are packed with memories that I never wish to forget.

LEE Ho Hin Marcus

Current Student at Department of Engineering, University of Cambridge, UK

Throughout my school years in HKBUAS, I encountered a vibrant tapestry of experiences that shaped my character and intellect. From the thrill of participating in science fairs to the camaraderie of team sports, each moment was a lesson in teamwork and resilience. I developed a passion for learning, fueled by teachers who encouraged curiosity and creativity. Friendships blossomed in the hallways, and challenges became stepping stones for growth. These formative

years instilled in me a deep appreciation for knowledge, collaboration, and the diverse perspectives that enrich our lives.

Additionally, HKBUAS provided a wealth of opportunities that enriched my educational journey and personal growth. Through various extracurricular activities, such as clubs and projects, I was able to explore my interests and develop new skills. The school organized workshops and guest lectures that exposed me to different fields and career paths, igniting my passion for future aspirations. Furthermore, the supportive environment fostered by teachers and staff encouraged me to take risks, whether it was trying out for a play or leading a student initiative. These opportunities not only broadened my horizons but also instilled a sense of confidence in my abilities to make a positive impact.

YUE Lut Sang

Current Student at Department of Statistics, London School of Economics and Political Science, UK

It has only been 2 weeks since freshers' week in LSE so the content in general has not been too hard yet. In terms of life though, I would say it has been extremely fun in the LSE halls life and through social networking events, since I had the chance to meet many more people to talk to around the university, and most importantly we had plenty of free food!!! (trust me the food in London is expensive)

Some of your big questions might be 'Any tips to get to LSE?', 'What should I expect in London or in LSE?'. I would say, for now just discover more experiences in Hong Kong and share it with the admissions officers in the future. You don't have to be a crazy intelligent student to get to the top universities here in UK, nailing your personal statements, admission tests and interviews are just as equally important! Life in UK has overall been splendid for me, but if you come to London, be prepared to be an outgoing person and to have lots of conversations every day! Anyways, good luck with your public examinations and applications! If you do end up in LSE hope to see you as my junior next year!

LI Mischa Keona

Current Student at Faculty of Brain Sciences, University College London, UK

Being in UCL and studying Linguistics is a very unique experience. I've never left Hong Kong except to study overseas, making this my first time studying abroad, and everything feels very new—the students, the environment, and the culture are all very different from what I'm used to. I've been walking way more ever since arriving in London, as well as reading new books and trying new snacks.

I've been enjoying my dorm life more than I expected, and I've made many new friends. Living with different people and sharing amenities is a step out of my comfort zone, but it's a welcome change. Being in charge of everything now is liberating, albeit scary at first.

My new assignments have been challenging and require me to think more about deeper topics, but I'm very happy to work with a subject that I have a primary interest in. My professors are very passionate people. Sometimes they teach in convoluted ways, but they genuinely enjoy answering questions and discussing topics related to their field of study.

UCL has a really nice balance of academics and fun, as many students do study hard but aren't afraid to let loose and enjoy a bit of social life. I've joined the Pokemon Society recently, and many of their members are kind and encouraging. It really feels like there is a society for every interest, here.

ZHANG Jiawen

Current Student at Li Ka Shing Faculty of Medicine, University of Hong Kong

The first month of university has just whizzed by, and it's been quite a blast. University life is certainly a big shift from secondary school—The flexibility of lesson scheduling, having lessons in grand lecture halls, and the unique experience of living with dorm-mates—These have all been fresh and exciting things that I've always longed to try.

Yet, as I sit through late-night study sessions, try new foods at campus canteens, and rush after merciless bus drivers to make it to lectures, I find myself looking back at the precious fragments of my past journey in A-School—the long hours our teachers poured into after-school study sessions, patiently untangling our academic struggles; the meals we shared with our friends for birthday dinners and end-of-exam celebrations; and the times we chatted on our daily commute to school and back.

These cherished memories may have long passed, but they will forever glow warm in my heart. They remind me of my lifelong friends, how we've gone through thick and thin, laughter and tears; and of our beloved principals and teachers, who work tirelessly to guide us toward our dreams, even after graduation. (that's you Ms. Koo :)) These moments are the lighthouse that guides me, no matter how far I sail.

As we flip the next pages in our book of life, should we ever feel stressed and overwhelmed, let's glance back at A-School—the harbour that shaped us, its anchor of unwavering support giving us the confidence to learn, and the vision to succeed.

Start where you are. Use what you have. Do what you can.

WONG Yik Long

Current Student at Li Ka Shing Faculty of Medicine, University of Hong Kong

The first month in university blew past like the wind, fierce, fast but it also gives you a sense of liberation. You're free to do what you want, free to experience things that interest you, all without someone in your ear, telling you what you can or have to do.

Having said that, as a medical student, I've had to hit the books every day. And looking at the size of my cohort of 400 people, I sometimes think of the days I spent here in secondary school, where you know everyone, the teachers, classmates or even people from the other grades.

By advancing into university, you kind of break through the cycle you have been through the past 12 years of your life, you're no longer in a familiar, safe environment, repeating the same day over and over again.

How you experience university life depends on you. Ask yourselves these questions. What interests you? What do you really want to learn? Explore the number of different majors offered in university. This is another big change in our education, we get to learn and absorb things we chose, and it's the one that keeps me motivated in pursuing my studies. It's not only about learning for the sake of exams and grades, but also how to apply your knowledge.

There are an infinite number of opportunities for you at arm's reach. Every day, invitations to events and seminars flood my inbox. At the end of the day, you are responsible for your own decisions you make. It's the first step into life and I'm pretty happy where I am right now. To those who are aiming for medicine, relax, be yourself, but remember to work hard as well.

LO Matthew Kok Chung

Current Student at Li Ka Shing Faculty of Medicine, University of Hong Kong

As I begin my MBBS programme at HKU, I am adjusting well to this exciting new phase. The intensive curriculum covers foundational medical sciences like anatomy, physiology, and biochemistry through engaging lectures and practical sessions. I've found the pace demanding yet manageable, building on the solid foundation from secondary school.

Clinical simulations introduce patient interaction early, sharpening my skills in a supportive environment. Overall, the transition feels smooth, and I am motivated by the path toward becoming a doctor.

Thank you to HKBUAS for the support groups for medicine aspirants, which provided guidance, mock interviews, and application tips that made my preparation smoother. I appreciate the attendance of Dr. Benjamin Chan and Ms. Jacqui Koo at my White Coat Ceremony on September 27, 2025 - it was a meaningful gesture of support. Thanks also for the dedicated teachers who nurtured my interest in science through lessons and advice, helping me excel in biology and chemistry. The school's resources, like the well-equipped labs with advanced microscopes and comprehensive online study materials, built a strong academic base that eased my university transition.

HKBUAS's focus on holistic development taught me discipline and resilience through structured study habits and stress management techniques, essential for this demanding field. Extracurricular opportunities like community service honed my teamwork skills, communication abilities, and empathy—qualities vital for a future physician. Your collective efforts ensured I was well-prepared academically and emotionally for this medical journey.

FONG Hannah

Current Student at Faculty of Medicine, Chinese University of Hong Kong

As I recall my past 12 years in A-School, the memories come flooding back not as a single story, but as a mosaic of moments that gradually shaped who I am today.

I still vaguely recall the days in Primary Division, full of curiosity, excitement, and exploration. Those early years were about learning how to establish and sustain friendships, gradually understanding manners, and experiencing the sheer joy of playing tag during lunch recess. As I grew, A-School became not only a place for learning but also where I found my interest in medicine. Through the engaging activities in science and biology classes, the excursion trips that broadened my horizons, and the extracurricular opportunities A-School offered, I realized my passion for medicine and my desire to serve as a doctor.

My time with Panorama serves as a particularly defining chapter that changed my life. I wasn't the type of person who felt comfortable under the spotlight, and being elected as the Student Union Chairperson was far outside my comfort zone. Of course, I stumbled along the way. There were speeches where my voice trembled, events that were met with skepticism, and moments when I questioned what I had gotten myself into. Yet, with the amazing team that always had my back, I realized the spotlight wasn't an interrogation lamp but a shared stage. My journey in Panorama fueled me with the courage to explore the world beyond my sight.

The past 12 years of adventure were never drawn in a straight line; they were a vibrant, winding path of discovery, growth, and exploration, with each experience serving as a crucial brushstroke in constructing the larger picture.

CHEUNG Sui Lun Colin

Current Student at Faculty of Medicine, Chinese University of Hong Kong

Twelve years together at A-School have allowed us to develop a unique bond with our school, teachers, and classmates; we've become a family. Chatting with friends in the classroom, searching for teachers in the staff room, forming groups for projects — surprisingly, it's these small moments that we often take for granted.

From excursions and competitions to PBL, I'm grateful that A-School has been a place where we could discover ourselves, filled with opportunities that gave us precious memories. I am especially thankful for all the teachers I had over the years, many of whom were like our peers, from having meals with us to talking outside of class. They have been the true driving force of the school, going out of their way to do the most for us. Their warmth and embrace has truly made the school feel like home. And of course, school wouldn't have been the same without my friends and classmates. From hanging out during holidays to tackling LSETs together, they've been my greatest motivators and teachers. Each person has played a part in shaping who I am today.

As much as I'd love to turn back time and relive those moments, I know that A-School has prepared us to move forward — to be curious, courageous, and ready for what lies ahead. It's bittersweet to say goodbye, because while we're excited for the future, we're also leaving behind a chapter that shaped us in ways we'll never forget.

IP Tsz Hin Adrian

Current Student at Faculty of Medicine, Chinese University of Hong Kong

The transformation from high school to university has been both daunting and exciting. Academically, although the content covered was much deeper and broader, it was such a thrill to know about the intricate details of human anatomy and various chemical pathways, even when it felt challenging sometimes.

But university is not just about studying, it also provides me with the freedom to explore my hobbies and independently manage my time. For example, something I picked up at university was table tennis, and I often play 5-6 hours a week with my friends I met at my college. In addition, I was fortunate enough to join the Student Surgical Association of Hong Kong (SSAHK), which provides me the opportunity to delve deeper into this specialty. As the Vice President of this medical society, it would be my pleasure to organise activities that would help students gain a greater understanding of this field.

Overall, university life has been quite busy at times but so much fun as well. Therefore, I encourage you all to meet this new chapter of your lives with curiosity and the courage to step outside your comfort zone. Thank you HKBUAS for providing me a pathway to pursue my dream career, and I am open to any opportunities for helping like-minded students.

CHUNG Lok Yan

Current Student at Faculty of Dentistry, University of Hong Kong

My first year as a dental student has been a surprisingly delightful chapter. Contrary to the daunting images of endless studying I had before university, the reality is that our workload is far lighter than I ever imagined. We attend our lectures, but the atmosphere among my clinical group is less about intense cramming and more about shared enjoyment. Our time together is filled with creative activities and lighthearted fun—from designing a heartfelt banner for our professor to throwing surprise birthday celebrations.

Besides that, I've fully embraced campus life by joining a student committee, or 上莊. We're constantly planning various activities and events together, which has allowed me to form strong friendships with my amazing peers.

TANG Hau In

Current Student at Faculty of Law, Chinese University of Hong Kong

Contrary to the popular stereotype of law school, I am having a lot of fun at CUHK Law. Perhaps it's due to the social nature of this major, but professors, faculty staff, and classmates are all incredibly warm people who make me feel at home. I've also enjoyed our tutorials quite a lot and would not recommend skipping, because that is where lectures on theory condense into applicable methods you'll need for your future career (and final exams)!

There's always time to go cafe/canteen hopping and sidequesting with my friends between the heavy workload of reading cases every day. For example, in these short 1.5 months, I've found 4 out of the 5 known campus cats, and spotted 6 bird species out of 130+ known to be on campus. Some of my friends have reported spotting monkeys and deer, but I clearly have not done enough cardio uphill to unlock those yet.

To my juniors: I don't think adapting to university life is a big issue. The nature of your old connections changes as you make new ones. Your identity may be different, defined by clubs, societies, newfound interests, or passion, but at the end of the day, you are still you. This is simply a chance to get to know yourself better in a different environment! You will find your own people, and most importantly, yourself, and I think that's much more important than whether you 'fit in'. All the best.

HUANG Yueming Helen

Current Student at School of Biomedical Sciences, Chinese University of Hong Kong

The leap from being an A-School student to being a university student has been both exciting and daunting. Between navigating the huge campus and tackling hefty assignments, I've had many moments where I've felt "lost" like wandering into the wrong lecture hall or getting on the wrong school bus. However, I'm slowly starting to adapt to university life, learning how to establish a proper balance between socializing and studying. I've also continued to step out of my comfort zone like A-School has taught me and challenge myself. For example, I've joined various societies like the Biomedical Sciences Society and the Film Society to expand my social circle and to connect with like-minded people. Yet, all of these would not have been possible without A-School's support and provision of opportunities to broaden my horizons. Eleven years in A-School and countless memories created, be it the various excursions and exchange trips to different places, the fun and informative OLE sessions and the stress-relieving events held for grade 12 students. Being a part of St. John was also a core memory, I still remember having to march under the dazzling sun and practice first-aid skills with my friends after school. Although it was tiring, I genuinely enjoyed the process and found it extremely rewarding. I will never forget how much A-School has shaped me into being a better person and I am endlessly grateful to all my teachers, classmates and A-School for making my secondary school life so fruitful and memorable. Thank you A-School!

CHEUNG Tsun Yin

Current Student at Faculty of Biology, Medicine and Health, University of Manchester, UK

A-School nurtured my growth and offered me a platform to shine as both a student and a softball player. I am truly thankful for the unwavering support and exceptional resources available to students. The A-Level curriculum, with its unique focus on science subjects, laid a solid foundation for my university studies, making my transition to higher education much easier. I will always cherish the experiences and lessons that have shaped my journey.

Looking back, I remember how the beginning of my semester was filled with challenges, including adjusting to a new environment and feeling homesick. However, A-School's supportive atmosphere helped me overcome these hurdles. The outgoing personality I developed there allowed me to connect with new friends across campus, enriching my experience.

Now, as I thrive in my new school life in Biomedical Science at the University of Manchester, I am excited about the curriculum filled with topics that fascinate me, from molecular biology to human physiology. Each class feels like an opportunity to dive deeper into subjects I am passionate about, and the engaging teaching methods make learning even more enjoyable. I'm thrilled to be in an environment where I can explore my interests and prepare for a future in this dynamic field.

HE Tsz Yui

Current Student at Faculty of Engineering, Faculty of Science & School of Computing and Data Science, University of Hong Kong

Happy 20th anniversary to A-School! It's a joy to celebrate this milestone and reflect on the foundation that has prepared us so well for the journeys ahead.

It feels surreal to be writing this just one month into university life, but already, so much has shifted.

I've met so many remarkable peers—people who not only excel academically, but are also kind, inquisitive, and driven. It's humbling and motivating to be surrounded by such energy. There's more time to reflect, more space to explore, and a plethora of opportunities awaiting around every corner.

For the first time, learning feels genuinely purposeful—not merely about passing exams, but a byproduct of the pursuit of knowledge. The pace is brisk, the expectations are high, and most of the time, it's self-directed. Yet with inspiring professors and tutors who truly care, it's a challenge I'm dedicated to taking on.

One moment that crystallized this shift in perspective happened during a philosophy class tutorial. As a warm-up, our tutor asked, "Why are you here?" One of my friends responded, "It's our duty—a kind of mutual contract between students and teachers." Her words stayed with me. In a time when skipping lectures is often joked about, her perspective reminded me of the deeper obligation we carry.

Looking back, I'm grateful for the values instilled at A-School—curiosity, discipline, and compassion. These have subtly influenced how I approach each new experience, and they continue to guide me as I navigate this new chapter.

LEUNG Lok Yin

Current Student at School of Business and Management, Hong Kong University of Science and Technology

It's honestly hard to believe it's already been almost two months since I started my university journey at HKUST. If I had to describe it in one word, it would be "chur" – in the best way possible, though. The pace is intense, and I've already experienced the university tradition of having exams scheduled at night...

Since I missed the orientation camps due to my late registration (GCE stream), I was determined to dive headfirst into campus life to meet new people. I may have gone a little overboard! I've joined the English Ambassador Programme, the Student Union, the Drama Club, a mental health first aid training course, and even the Mahjong Club! It's a juggling act, but each activity is a new adventure, helping me connect with amazing, like-minded people from all different majors and backgrounds. While it's been hectic, these first two months have taught me the importance of balance and stepping out of my comfort zone. I'm excited to see what the rest of the year holds, and cheers to more "摺liba" (library-based self-study) sessions!

CHAN Nathan Heilun

Current Student at Department of Mechanical and Aerospace Engineering, Hong Kong University of Science and Technology

HKUST is commonly known as the "University of Stress and Tension", but I like to think of it more as the "University of Spiritual Transformation". Thanks to the thriving Christian societies on campus and the wonderful people I have met!

UST schoolwork might be tough sometimes but a quick hike across campus is bound to clear your head. I have come to discover that there are plenty of secret sightseeing spots on campus to wash away your troubles, UST truly a campus where sights are second to none in Hong Kong.

Furthermore, I have also joined the USTCCC, i.e. the 學園傳道會. This really was a game changer for me. Originally, I thought that this was merely a fellowship targeted for university students, but the USTCCC actually organizes many more services for the campus! Particularly, the weekly campus outreaches stood out to me. During the outreach we would first pray for the people we were going to meet, then split into pairs to look for idle students waiting between classes. I never thought that my introverted and reserved self would be able to strike up a conversation with people I have never met before, much less a conversation about faith, but this first month has pushed me to be a more proactive and social version of myself. It has also opened my eyes to how diverse even the UST student body can be in lifestyles and in their faith. I have only just started my initiation into HKUST and I look forward to what the future holds!

CHEUNG Yee Ying

Current Student at Department of Psychology, University of Hong Kong

Six weeks into university life, and I still feel like the antsy little secondary school student I was several months ago from time to time. It seems like a part of me will always lie with A-School, even though I've long since graduated.

University life is a total change from that of secondary school. The sudden freedom is both fun and intimidating – it's a glaring sign that I'm now an adult in charge of my own choices and consequences.

Looking back at my twelve years of A-School, it became increasingly obvious how well I was sheltered. If I had any questions, I could simply shoot my teachers a text and would receive a reply within the day (instead of anxiously staring at my inbox while my tutor ghosts me for a week). If I accidentally missed an assignment deadline, I could beg for forgiveness on the day and maybe receive an extension. If I wanted to join an extracurricular, I was spoon-fed the choices in the morning assembly. There were so many things I took for granted that I now realize were lucky privileges – such as bottles of chilled water in vending machines! Seriously, why don't they sell iced water anymore in university?

Jokes aside, I am grateful to both my university for offering the opportunity of study to me out of so many competitors, and to A-School for providing a forgiving and nurturing environment where I could laugh, make mistakes, and most importantly, grow up safely. Without A-School, I doubt if I would have become the person I am today.

KWOK Lok Yao

Current Student at Department of Health Technology and Informatics, Hong Kong Polytechnic University

University has been fascinating and fruitful so far. Meeting new friends from all over the world, joining orientation camps, and participating in societies was an entirely new experience. While we were only learning the fundamentals, those lessons on human anatomy and physics were my first, unconscious steps towards radiography. Entering the second month of university, spending countless nights in the library preparing for assignments and exams reminded me of all those memories from A-School.

A-School secured an environment for personal growth, providing me with the opportunity to participate in various competitions like the OTIS MTMC student challenge competition and school teams such as the Digital Sergeants and Mathematics Team. These experiences equipped me with invaluable leadership and communication skills, which are significantly useful in collaborating with my university group mates. The annual Athletic Meet and Winter Concert were not merely extracurricular activities; they were crucibles where we forged our school spirit and lifelong friendships. The sense of collective identity we built is something I now carry with me into the team-based, patient-centric world of healthcare. A-School did not just prepare me for university exams; it equipped me with the perseverance, empathy, and collaborative spirit essential for my future role as a radiographer. I am truly thankful for the 12 years of memories, friendship, and education at A-School.

LO Jasmine Kok Hei

Current Student at Department of Psychology, University of Hong Kong

After nurturing a long-standing interest, it's thrilling to finally study the subject in a structured way. This first month has been particularly fruitful; our lectures have already covered fascinating foundational concepts, from biopsychology to the mechanisms of learning and motivation. It feels like I'm finally understanding the science behind human behaviour, and every lecture confirms that I am on the right path.

This academic pursuit feels like a direct continuation of the intellectual curiosity that was so deeply nurtured during my time at A-School. The rigorous curriculum and dedicated teachers didn't just prepare me for university-level work; they fundamentally shaped me into the inquisitive and resilient person I am today. The emphasis on critical thinking, disciplined study habits, and collaborative learning provided the essential toolkit I now use daily to dissect complex theories and engage in thoughtful discussions. I am deeply grateful for that solid foundation, which gave me both the confidence to pursue my passion and the skills to truly thrive in this new academic environment.

WONG Tsz Wai

Current Student at Department of Health Technology and Informatics, Hong Kong Polytechnic University

Time flies, I can hardly believe I'm now a university student! From a young age, I've been determined to pursue a career in healthcare, driven by a desire to serve and help patients. PolyU has become my new home, a place where I can connect with like-minded individuals and prepare myself to be a radiographer in Hong Kong. This journey has opened up numerous opportunities for me to explore my interests further.

In just a few months of studying at university, I've made some wonderful friends who have become my companions for lectures, study sessions before assessments, and even some fun outings. I particularly enjoy the atmosphere of studying with them in the garden next to the library at night. The library itself has turned into my second home, where I've tackled many deadlines alongside my project group mates. Having them by my side during lab sessions and clinical observations at the hospital has been valuable as we can learn and grow together, all while supporting and having fun with one another.

Beyond academics, I've also participated in activities organized by the Radiography Student Association. One of the most memorable experiences was Night, an event held after our first month of study. It was a great opportunity to meet new people and forge friendships with those who share similar goals. University life has also granted me the time to pursue other passions, such as volunteering and reconnecting with my friends from secondary school after lectures. Sharing meals with friends near PolyU is a delightful way to unwind and relieve some of the stress from our coursework.

ZHU Frederick Shicheng

Current Student at HKU Business School, University of Hong Kong

It is hard to believe that it felt like days ago when I was exiting Shek Mun station to clock into school, and now I am standing in queue for the lifts at Hong Kong University Station.

This new chapter of my life has taken me by storm. I stepped into university with nothing but a dream and sky-high expectations, exploring the campus, attending lectures, going to social events. Everything here far exceeded my expectations in every way. Though overwhelmed at first, I slowly began to find my rhythm and my place in this new environment. In a magical way, I felt like I was a toddler again, having limitless energy to explore and gain something new every day.

It is bittersweet that my journey at A-School has come to an end, and those who once shared a classroom are walking down different paths and embarking on their own adventures. I will still look back at every laughter, sweat and tear, because A-School to me is really a special place that made me who I am today.

Twelve years at A-School has prepared me not only by equipping me with academic knowledge, but also developing my character and giving me friends whom I will cherish for life. I learned that growth comes from stepping out of my comfort zone, whether that's tackling an entirely new business subject, making new friends, or joining an intimidating society. I carry these lessons forward, knowing that the challenges of university are just another chapter in my journey of becoming who I'm meant to be.

TAM Yik Yin Matt

Current Student at HKU Business School, University of Hong Kong

Although my major is supposed to be quite relaxed, I have joined a society called HICS and am actively participating in case competitions on a weekly basis.

Tutors and lectures can be a bit confusing at first, but after a week or two, everyone starts to get the hang of it. The biggest highlight of my university experience so far has been hall life. I'm lucky enough to live in St. John's, where

numerous IBGM and medical seniors help us navigate how to get a good GPA. At the same time, it's also a great opportunity to meet people from a wide range of ethnicities. On my floor alone, we have friends from Slovenia, South African, Denmark and more.

For those considering applying to IBGM, I recommend giving it a shot; and if you are thinking of applying to St. John's, good luck! The acceptance rate is 7.8%.

黃純一

現就讀香港大學教育學院

感謝王錦輝的老師一直以來對我的悉心教導與關懷。無論在學業上還是人生道路上，您們都給予我極大的啟發與鼓勵。老師不僅傳授我專業知識，更教會我堅持與責任的重要，讓我懂得如何在困難中尋找方向，在挫折中成長。每一次課堂上的講解、每一次細心的指導，都是我學習路上最寶貴的養分。如今，我有幸能夠入讀香港大學言語治療課程，並深知這份成果的背後，離不開您的悉心栽培與支持。我衷心地感謝您多年來的信任與鼓勵，而您的教誨將成為我前行的力量，激勵我繼續努力，成為能回饋社會、幫助他人的人。

郭知澄

現就讀日本早稻田大學國際教養學部

「孩子不是等待被填滿的瓶子，而是盼望化作燃燒的火焰。」這是出自於2013年香港文憑試的題目，幾個月前的我被批大綱的評語是：「立意不錯，但判錯題。」這不禁讓我開始思考「成長」及「教育」的意義，卻在幾個月後切身的體會到了。

我衷心感謝A-School給了這個機會讓我去早稻田大學升學，在A-School的12年間，我經歷了許多，找到了真正的自己，全因學校給了我空間去探索和發展。學校注重的全人發展令我能夠攻讀我喜愛的歷史，加上不偏重所謂「有錢途」的科目，讓我自由發掘愛好和技能，令我得以發現我的夢想職業，或許這就是教育的真諦吧。

九月中的我在父母的陪伴下來到了日本，父母為我置辦好了一切，我卻還是一張白紙。被公主般捧在手心的我在父母回到香港後必須要獨立起來，不論是生活起居或是心態處理。坦白說直到現在我還是沒有習慣這裡的生活，因為有了新的人可以去交流、新的難題待我去解開、新的挑戰讓我去跨過，令我的生活充實起來，或許這就是成長的過程吧。

17TH ATHLETIC MEET

Primary Division 2025-2026

October 10, 2025

The **17th Athletic Meet** was held at Ma On Shan Sports Ground, uniting the entire Primary Division in a spirited display of enthusiasm and support. Students eagerly anticipated this opportunity to compete and challenge themselves, with beautiful weather enhancing the day's excitement.

Our young athletes displayed remarkable determination and resilience, striving for excellence while embodying true sportsmanship and the core values of PERCCI. The atmosphere was electric, with cheers from spectators creating an uplifting environment for all participants.

Congratulations to House Faith for winning the Inter-House Cheering Competition, showcasing outstanding teamwork and support. House Kindness also secured the Overall House Championship trophy, presented by our Guest of Honour, **Mr. Felix Diu Chun Hei (香港男子田徑運動員刁俊稀), current representative of Hong Kong China Athletics Team.**

The day was filled with unforgettable moments as students showcased their talents in various events, demonstrating impressive skills and unwavering enthusiasm. Their dedication fostered a sense of camaraderie among everyone involved.

We are proud of our students' achievements and the values they demonstrated. We believe in their potential and are confident they will continue to reach new heights in the future!

6E CHOW Wing Ching Kady

This year, I was especially surprised by the constant engagement and encouragement from my schoolmates. Even though this is my last year participating in the PS Athletic Meet, I believe that the spirit of sportsmanship and dedication shown by my school this year will continue to inspire me as I grow. I am truly grateful for my teachers, schoolmates, and parents for all their hard work and dedication towards the Athletic Meet.

2025年氣候變化及生態保護 教育與傳播國際研討會

本校師生代表團於2025年9月19日至21日參與了在深汕特別合作區舉行的「2025年氣候變化與生物多樣性教育和傳播國際研討會」及其系列研學活動。師生出席研討會，與海內外專家學者深入交流，並榮幸分享了本校在氣候變化及生物多樣性教育方面的貢獻與成果。

同學們前往深汕紅羅畲族村，參與「為蜂媽媽找個家」深港澳同心共建蜜蜂家園項目發布會。該項目將蜜蜂視為維護生態平衡的「關鍵物種」，以「蜂箱認養計劃」為核心，結合智能科技，推動生物多樣性教育，引導學生理解生態保護與「碳中和」的密切關聯。本校20位學生更成為首批「蜜蜂小使者」，充分展現對生態議題的熱情與關注，為大灣區綠色可持續發展注入了青春力量。

9A 劉子琪

在這次環保研習中，我獲得了許多寶貴的經驗，深刻體會到生態保護的重要性。我參觀了潮州，這裡的環境與香港截然不同，優美而寧靜，沒有高樓大廈，讓我感受到與自然的親密接觸。在參觀中，我學到如何將淤泥轉化為有用的資源，這不僅減少了廢棄物，還能改善土壤。看到各位專家積極討論和參與環保活動，我也受到啟發，決心從小事做起，為保護我們的地球出一份力。希望更多人能一起關心環境，讓地球更美好！

9C 孫玉林

我們在這次的研習中參觀了不少新穎的地方，例如海藻養殖場，以及污泥處理基地。這些都是對環保和保護環境作出巨大貢獻的設施和科技產品。我認為他們的意義遠比其他的設施更重要，因為他們不僅可以減少有害物質的排放，還能夠將廢品循環利用，讓他們擁有新的用途和價值，從而減少塑料和其他難以降解的材料的使用。通過這次關於環保和保護環境的遊學中，我體會到了環保對人類，對地球無法抹去的功勞。它不僅可以幫助我們保護環境，還可以讓我們探索更多新奇的科技產品來支持環保的發展。

《給孩子們的大師講堂》

「從甲骨文訴說五千年文明的發展與演變」

我校師生積極參與《給孩子們的大師講堂》，以拓寬視野、培養探索精神。該活動由中國宋慶齡基金會主辦，日前在本校禮堂圓滿舉行，師生們獲益良多。

9月17日，我校榮幸邀請到著名考古學家、南方科技大學講席教授唐際根教授親臨，為約400名九至十年級學生帶來「從甲骨文訴說五千年文明的發展與演變」的精彩講座。唐教授以生動的語言和豐富的考古實例，深入淺出地講解了殷墟考古與文化保護的重要性，充分展現了華夏文明的燦爛輝煌。

學生反應熱烈，認為講座啟發了批判性思維，拓寬了知識視野。有學生表示：「文化遺產不只是過去的遺物，更是連接未來創新的橋樑。」活動成功營造了輕鬆愉快的學習氛圍。

11A 張芊穎

很榮幸代表學校參加這項極具意義的活動。在《大師講堂》中，我有幸聆聽七位專家的啟發性講座。內容豐富有趣，涵蓋了從甲骨文到碳排放、再到未來科技發展等廣泛課題。這不僅讓我吸收了更多知識，提升了學習興趣，也讓我了解國家發展，為國家的進步感到驕傲。

A-Singers

Achieve International Acclaim in Denmark

Our **A-Singers** have once again made Hong Kong proud on the global stage, achieving outstanding success at the prestigious **Grand Prix of Nations Aarhus 2025** in Denmark. Competing against **132 elite international teams**, A-Singers earned a **Gold Medal in the Youth Choirs category**, while our Chamber Singers secured a Silver Medal in the Music Sacra with accompaniment category.

Beyond the competition, the journey was a profound cultural exchange. Our students joined choirs from around the world in a mass sing-along of Leonard Cohen's *Hallelujah* in the Aarhus Cathedral and showcased Hong Kong's unique cultural voice by performing the Cantonese piece *Picturesque Cityscape*, composed by our own Collaborative Pianist Mr. Jason Liu with words by famous lyricist Ms. Jessie You. This experience truly highlighted the power of music to unite people across borders.

8B LEUNG Wing Yu Natalie

The park rehearsals in Denmark taught me that music is not just for winning, but for sharing joy with everyone around the world.

11E LAU Yan Chi

A-Singers is not just a team; it's a family that supports each other to achieve our best.

PBL Showcase Day 2025

July 5, 2025

神經外科顧問醫生、「十大傑青」麥凱鈞醫生擔任主禮嘉賓，參觀同學專題研習成果

PBL Showcase Day 2025 was an absolute blast—uniting parents, students, teachers, and our extended school community in a vibrant celebration of creativity, collaboration, and real-world impact. Parents and students participated enthusiastically, exploring exhibits, posing insightful inquiries, and sharing in the excitement of discovery.

Project-Based Learning (PBL) fosters a dynamic space where students channel curiosity into actionable ideas. This year, their remarkable growth shone through—confidence, critical thinking, and the ability to transform challenges into opportunities. Brilliant ideas evolved from concepts into polished innovations addressing everyday needs, showcasing academic prowess and passion for positive change.

Under the inspiring theme of **A-Community**, the event emphasized our collective strength: we as a community, helping people in our community. Students presented innovative solutions designed to tackle pressing problems, improve lives, and ease daily burdens. This theme resonated deeply, reminding us that true innovation flourishes when we collaborate as one.

We are grateful for the witnessed growth and innovative spirit defining our students. Such gatherings reinforce that united as A-Community, we empower the next generation for a brighter, connected world.

2D WONG Alton

This was my first experience with Project-Based Learning (PBL), where I did research and learnt independently. Through our project, I can see the supermarket staff are unsung heroes, who work tirelessly every day. I learnt to respect them and be grateful for their contributions. Working in a team allowed me to share ideas and improve my skills to work with peers. I also learnt from other groups about the community heroes, such as farmers and delivery workers. This project boosted my confidence and sparked my curiosity about discovering the people who support our community.

10D WAN Hui

The PBL experience was about teamwork, sacrifices, and shared moments, not just winning. Completing the project wasn't smooth—flaws emerged, and heated arguments flared. Yet, we stepped back, solved issues despite differing perspectives, and created A-Community. Looking back, our disagreements showed we cared deeply about our project and community, building a world without borders together.

中國北京親子遊學團

探索中國的藝術、文化和歷史以及姊妹學校交流。

5D 霍珀醇

爸爸媽媽曾在讀書時到北京作交流生，從小我便聽他們說起北京的壯麗與文化底蘊。這次能親身踏上國家的首都，讓我感受深刻，收穫良多。

最令我感動的，是在天安門廣場觀看升旗儀式的那一刻。儘管我們凌晨兩點多便起床出發，但當國旗在晨曦中冉冉升起時，所有的疲憊瞬間消失，取而代之的是滿滿的自豪與激動——那是一種身為中國人的榮耀。

這幾天的旅程中，我們參觀了首鋼園、長城和故宮，了解北京在生態保育、美食文化、歷史建築等方面的特色；還有機會走進胡同，與當地居民及北京育才學校的學生交流，令我對北京有了更立體、更親切的認識。

台北

探索台灣生態保護防災與歷史文化。

PS Excursion

A-School's grand series of excursions spanning Mainland China, Asia, and Europe offered students a remarkable journey of discovery and learning. Immersed in diverse cultures, they explored rich local histories, embraced multiculturalism, and engaged deeply with varied landscapes and resource management practices. These enriching experiences fostered language immersion, advanced understanding of ecological preservation and sustainability, and unveiled the intricacies of aviation technology. Through service learning, students cultivated empathy and global citizenship. This expansive programme not only broadened their academic horizons but also nurtured personal growth, cultural sensitivity, and environmental awareness—celebrating an extraordinary tapestry of knowledge and lifelong benefits that will resonate well beyond the classroom.

Finland

To understand science and technology in aviation, ecology, architecture and to learn about the features of Finland's history and culture.

6C PANG Hailey

Our study trip to Finland was a truly enjoyable and eye-opening experience. Compared with Hong Kong, the air there felt much fresher, surrounded by pure nature everywhere we went. Finnish food had a mild, clean flavour—simpler but refreshing in contrast to what we're used to at home. In the art workshops, I could freely express my thoughts and emotions while learning how to live in an environmentally friendly way, just like the caring and considerate Moomin. The local lifestyle was quite different; we loved hiking through peaceful forests, spotting giant dandelions, lupines, Christmas trees, and even squirrels. Activities like floorball and the flight simulation gave us a taste of Finnish energy and creativity—whether dribbling a ball or handling basic flight controls. Our visits to the Helsinki city center and the Seurasaaari Open-Air Museum offered us a deeper understanding of both traditional and modern Finland.

London, United Kingdom

To submerge into an English environment and to explore differences and similarities between Chinese and British culture and art.

6A CHENG Lok Hei Isabel

I enjoyed this excursion a lot as we got to explore the United Kingdom. This trip has taught us a lot about teamwork, communication skills, and strengthened our English speaking skills.

Exploring London on the last day was amazing as we got to see the city from the London Eye. It made me feel connected to the place and revealed similarities between Hong Kong and the UK. I also loved visiting Caterham School, which has useful facilities like large fields and libraries for students to showcase their talents.

中國桂林

探索桂林、陽朔自然景觀、地理生態及歷史文化。

6B 林傲雲

在為期五天四夜的桂林交流活動中，我有幸親身領略了當地秀麗的山水景緻，並深入學習了桂林豐富的少數民族文化與悠久的歷史傳統。

此次行程中，最令我印象深刻的是參觀靖江王府與龍脊梯田的經歷。靖江王府讓我深切體會到，儘管古代建築不如現代建築多樣與技術化，卻承載著深厚的歷史文化底蘊。在參觀過程中，我不僅了解到桂林在古代發生的重大歷史事件，更有機會親身體驗了科學考試的場景，感受當年士子求學赴考的情境。而龍脊梯田的壯觀，則展現於其遼闊層疊的景緻。當我站在高處，望著水流順勢而下，滋潤每一層稻田時，不禁由衷敬佩古人順應自然、因地制宜的智慧。

中國河源

探索河源水源開發及環保策略。

London, United Kingdom

To appreciate the arts, culture and heritage across England, and to explore the contrasts and commonalities between British and Chinese cultures.

SS Excursion

A-School believes in learning without boundaries. We are committed to developing our students into global citizens with "local identity and global perspective". Every year, we organize a wide range of learning programs for our students in order to broaden their horizons, enrich their life experience, boost their language proficiency, foster cultural understanding, and promote effective communication and collaboration with individuals from various global backgrounds.

中國成都及重慶

探索成都與重慶的中國文化遺產，深化對華夏歷史的認識。

9D 丘祉義

在立格實驗學校的交流經歷令我受益匪淺。一走進這所學校，便有幾位熱情的師生歡迎我們。立格實驗學校的校園非常大，還設有宿舍，我覺得這對於居住得比較遠的學生來說十分方便。同時，我也注意到立格實驗學校很多教室並未安裝空調，這讓我學會了珍惜身邊那些曾習以為常的事物，心懷感激。課堂上，老師們生動的教学方式深深地吸引了我們。我們領略了四川歌謠的特色與魅力，科學課上製作葉脈書籤的體驗也讓我對葉子的結構有了更深入的瞭解。這次交流不僅增長了我的見識，更激發了我新的思考，使我獲益良多。

Okinawa, Japan

To understand how the Japan Government plans and executes policies concerning sustainable development issues.

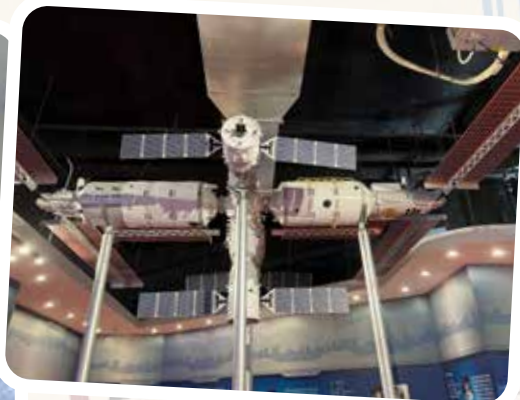

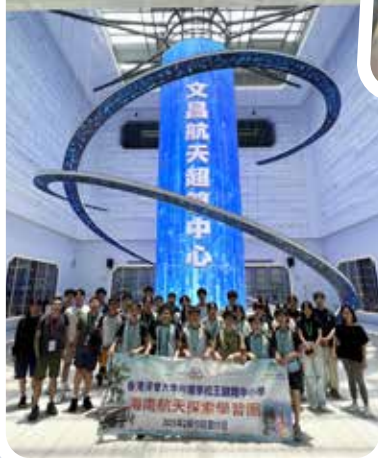

10D YUNG James

As a city whose income is mostly from tourists and visitors, it is amazing to see how all the Okinawa locals work together to accomplish and balance the SDGs, including the environment, social and economic aspects.

Okinawa has done some decent work on preserving these unique ecosystems. It has a unique ecosystem including mangroves and the ocean, which are being affected by global warming problems. Therefore, Okinawa has proactively protected these regions. They educate the tourists about the ecosystem in Okinawa. I have not only gained more information about these regions, and learnt how these sites are related to other SDGs than what I expect. For example, I've never thought of how the mangrove system can protect coastal regions from storm surges, which is related to SDG 14 life below water.

中國海南

參觀海南的航天基礎建設，親身見證衛星發射，瞭解中國航天科技的發展歷程。

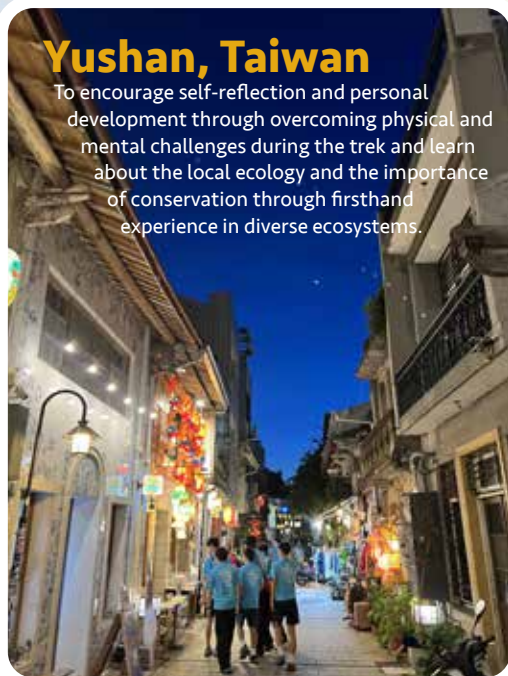

11C 梁巧言

天舟九號成功發射，長征七號火箭技術再獲驗證。此次任務搭載兩套全新飛天艙外服，並將出艙頻率從3年15次提升至4年20次。凌晨的發射場氣氛熱烈，航天員現場分享經驗，與觀眾熱情互動。升空瞬間，助推器點火而出，尾焰照亮蒼穹，與日月星辰交相輝映。作為改進型六艘飛船中的第四艘，此次任務讓我看見了中國航天穩步提升的硬實力。

Yushan, Taiwan

To encourage self-reflection and personal development through overcoming physical and mental challenges during the trek and learn about the local ecology and the importance of conservation through firsthand experience in diverse ecosystems.

Spain

To explore the language, history and culture of Spain, delve into iconic artworks and architectural projects through taking a Spanish course, investigating the works of Gaudí, Salvador Dalí, Joan Miró, etc, and participating in various Spanish cultural activities.

10A GU Man Yi

I visited a charming country by the sea—Spain. Those shining names that once existed on this land, Gaudí, Miró, Picasso.

I also visited historical sites and museums, which gave me a glimpse into the rich past of the place. The ancient architecture and artifacts told tales of bygone eras. Each of Gaudí's works blended lines, light, shadow and color, and would remain in Barcelona forever. When I saw the solemn Sagrada Família, I was shocked by its magnificence, and my friends and I made a sound "Wow" together. I sat there quietly, observing and feeling this sacredness with my eyes and body. It turned out that architecture also has its unique soul.

London, United Kingdom (University Tour)

To visit and attend the information days of various universities and explore the heritage and culture of the UK.

VARIETY SHOW₂₀₂₅

May 15, 2025

A Magical Evening of Talent and Adventure

The **Variety Show 2025** was a resounding success, held at the Y Theatre of the Youth Square, showcasing the incredible talents of our students through a captivating rendition of "**Aladdin**." Under the expert direction of Dr. Andrew Hon, the Dean of Music and Performing Art and Music Panel Head and the devoted efforts of our teachers, the students delivered performances that rivalled those of professional theatre troupes, leaving parents and guests spellbound with applause throughout the evening.

This year's show marked a significant milestone in our annual tradition, blending various performance segments with the beloved musical in a Broadway-style presentation. Our students, who excelled in various competitions over the past year, showcased their artistic prowess, creating a dazzling visual spectacle.

The evening featured outstanding performances from the **Choir Teams, Orchestra, Jazz Dance Team, and Chinese Dance Team**, all of which contributed to a vibrant atmosphere that transported the audience on a magical journey. The grand finale, conducted by the esteemed **Prof. Jean-Sébastien Vallée**, reached its peak with the timeless melody of **A Whole New World**, symbolising the dreams and aspirations of all performers.

The success of this event fills our school community with pride and excitement as we look forward to our 20th Anniversary next year, eagerly anticipating the opportunity to elevate our musical productions to new heights.

6E MAK Ching Ling Averie

Last year's musical, *Aladdin*, was unforgettable. I made new friends and improved my confidence and vocal skills through the performance. The biggest challenge was keeping up with the secondary students, who performed incredibly well. I decided to learn from them and observe their techniques. Despite our nerves, we shone on stage during the Variety Show. I love the English musical and hope to participate again next year with my friends!

8B KWONG Chung Chi Michelle

Portraying the role of Jasmine was a true honour. It was a journey that was challenging and exhilarating. It pushed me to grow not only in skill but in character, teaching me invaluable lessons of collaboration and trust. That experience deepened my connection to this theatrical family, and it's a feeling I carry with me as we step into a new season. I'm eager to bring the same passion and dedication to our next production and create even more unforgettable moments together.

「舞蹈世界盃」

DANCE WORLD CUP 2025

The **Dance World Cup** is a notable global dance competition that brings together **over 120,000 dancers aged 4 to 25 from around the world**, all striving for the opportunity to qualify for the annual DWC World Finals. This year, the DWC Finals were held in **Burgos, Spain**, featuring **over 50 countries and 9,500 talented participants**. It was a privilege for the students to compete and achieve notable success.

12E CHEUNG Yu Yuet Jamie earned her commendable **Gold Award and First Place in the Junior Solo Commercial category**, marking **Hong Kong's first gold award** at the Dance World Cup finals in her category. Additionally, the **Jazz Dance Team Trio** secured the **Silver Award and Second Place** in the Junior Commercial (Trio/Duet) category. The awards reflect not just achievements but also the dancers' hard work, passion, and commitment. Their spirit and teamwork truly embody the essence of dance.

Dance World Cup has been held in various countries, including Portugal, Spain, and Italy, and highlights exceptional talent across multiple dance genres such as Ballet, Jazz, Contemporary, Lyrical, and more. Each year, the competition fosters connections among dancers, choreographers, and industry professionals from across the globe.

Looking ahead, our dancers are excited to continue their journey, honing their skills and exploring new opportunities. We are committed to nurturing their growth and fostering a supportive environment that encourages creativity and collaboration. Together, they look forward to participating in future competitions and showcasing their talent on even bigger stages.

傳媒報導

12E張豫玥在Junior Solo Commercial中勇奪金獎

12E CHEUNG Yu Yuet Jamie

This year marked my second time competing in the Dance World Cup Finals, and I was thrilled to return to the international stage. After placing 5th last year, we were ready to go above and beyond to compete again. Fortunately, our trio rose to new heights and secured second place this time. Winning a Gold Award in my solo category was magical, proving that hard work pays off. With fierce competition from 51 countries, we supported each other through challenges. This trip has been rewarding, strengthening our bond and deepening our appreciation for Spanish culture beyond just the prizes we received.

APEX 2025 Exhibition and "Future of Arts Education" Forum

June 5 - 10, 2025

The School recently celebrated student achievement with the **APEX 2025 Visual Arts Graduation Exhibition and Visual Arts Annual Show**. The grand opening was held on June 6, 2025 at the **Pao Galleries in the Hong Kong Arts Centre**, attended by guest of honour **Mr. Yu Chiu For (余昭科先生)**, **member of the Cultural Commission**.

Mr. Yu highly praised the school for cultivating cultural literacy and innovative thinking through systematic arts education, noting its success in integrating traditional cultural elements with contemporary artistic language. Dr. Benjamin Chan explained the educational philosophy: "enlightening the mind through art," which helps students develop critical thinking and emotional expression.

The exhibition showcased **over 450 works across five thematic zones**, including **Secondary Division creations exploring social issues and the Primary Division "Aesthetic Enlightenment" Series**. Highlights included the Artists-in-Residence projects, where students utilized sophisticated techniques like combining traditional sculpting with 3D scanning and printing, and primary students learning digital painting with Procreate.

Further exploring the intersection of tradition and innovation, the school hosted the themed forum "Arts Education in the AI Era" on June 7, 2025. This crucial event was moderated by **Mr. Siu King Chung, former Associate Dean of the School of Design at The Hong Kong Polytechnic University**. The cross-disciplinary dialogue focused on core topics such as the boundaries of AI applications in foundational arts education and cultivating "human-machine collaborative" creativity.

3C CHAN Jun Ming Jeremy

After joining the APEX, I felt proud to present my wolf-themed artwork. Creating the wolf's expression with shredded paper was challenging but rewarding. I used light blue instead of grey to represent its fur, showing creative problem-solving. The piece shares an important message about protecting wolves. Winning the Mini Tunny Prize made it even more special.

MAN Po Hei (Class of 2025)

I'm delighted that the school has given me the opportunity to showcase my works at APEX 2025. With the theme of Back to Basic, it resonates deeply with us as art students. As I believe that for many of us, the journey into the world of art begins with the simple yet profound tool of a pencil. Therefore, this exhibition holds a significance meaning for our artistic odyssey.

Madam Daphne Lam Literature Award

林馬思蘊文學獎 2025

林馬思蘊文學創作比賽是我校文壇盛事，藉著盛大的頒獎禮鼓勵我校同學透過寫作探索想像力的深度。24-25年度比賽的主題是「我們的字裡行間」，旨在鼓勵同學思考文字的力量以及運用文字編織精彩的故事，發揮無限創意。

是次比賽頒獎禮於2025年7月9日舉行，並邀請到香港作家、資深中文科主任蒲葦老師擔任主禮嘉賓。蒲葦老師從事中文教育多年，推動本地閱讀風氣，當日他與同學分享閱讀心得，鼓勵同學們多閱讀，增進文學修養及提升中文能力。

當日上台的除了獲獎同學之外，更有中小同學帶來音樂演奏及誦讀表演，以團體或個人形式朗讀得獎作品。

「林馬思蘊文學獎」獲林曉鋒博士工程師JP伉儷捐款成立，襄助學校表揚學生創作的中英文優秀文章。獎項按年級分成初小、高小、初中及高中組別，涵蓋詩歌、散文、小說等不同體裁。當日林博士伉儷亦到場支持，致辭勉勵同學。

HERO FEAST

2024-25

July 9, 2025

After a year of hard work, students in different teams from areas of music, performing arts, visual arts and sports have made remarkable achievements. And it is our tradition to have the **Hero Feast Cum Lee Yui Kwan Sports and Arts Excellence Scholarship Presentation Ceremony (英雄會暨李芮君傑出體藝獎學金頒獎禮)** to celebrate and reward the outstanding teams and students.

With the presence of guests and principals, we are delighted to share and showcase the efforts and outstanding results achieved by **around 100 units of our talented and promising musicians, artists and athletes** across Primary and Secondary Divisions who are awarded with a special frame of certificate of appreciation as well as the scholarship donated by **Ms. Lee Yui Kwan (李芮君女士)**. Our **School Manager, Ms. Cecilia Lee Sau Wai, JP, (李秀慧女士)**, Partner Emeritus, Deloitte China, attended the ceremony to give an encouraging to our awardees.

After the ceremony, the awardees were joined by their teammates and coaches to have luncheon together to continue the celebration under a relaxing and cheerful atmosphere for reassuring their contribution and success.

6E WONG Ching Yan

Hero Feast was an amazing experience for me, as I got the chance to be on stage to receive the medals and trophies that my teammates and I achieved. The moment we stepped onto the stage, people started clapping for what we had accomplished in the athletics 4x100 relay. I want to thank the school for giving me this opportunity to excel in athletics and showcase my dedication and hard work.

9C CHEUNG Ho Lun Linus

Joining the hero feast last year, I was able to appreciate the many talents of our peers in arts, music, and sports. I was able to feel the joy and pride as we celebrated our success. It reminds us that our efforts and excellence will be acknowledged and celebrated, motivating us to continue pursuing our passions with dedication.

2024-25

PS & SS CONVOCATION

July 10, 2025

香港大學臨床醫學學院兒童及青少年科學系
臨床教授葉柏強教授

前警務處處長蕭澤頤先生

The 2024-25 Convocation Ceremony was a magnificent celebration of our students' holistic achievements. We were honoured to have **Professor Patrick Ip (葉柏強教授)**, a specialist pediatrician, as our Guest of Honour for the PS Convocation and **Mr. SIU Chak-ye (蕭澤頤先生)**, PDSM, PMSM, the Former Hong Kong Commissioner of Police for the SS Convocation to address our students with inspiring sharing and presented prizes.

The ceremonies highlighted the dedication and hard work that our students have shown throughout the year across various disciplines, including academics, music, art, and athletics. We applauded our top academics on the Principal's List, students who excelled in external competitions, and dedicated teachers through the Teacher Commendation Scheme. Special congratulations were extended to our Athlete, Artist, and Leader of the Year for their exceptional accomplishments. In the PS ceremony, we expressed our profound gratitude to our parent volunteers, whose unwavering support is the foundation of our success.

A wide array of awards was presented, including Academic and Subject Awards, OLE Awards, and, importantly, those honouring character and contribution: Service & Leadership, Conduct, and Improvement Awards. The achievements celebrated reflect not only individual excellence but also the collaborative spirit that defines our school culture.

As we reflect on these accomplishments, we are filled with pride and excitement for the future. Together, we will continue to inspire one another and build on the strong foundation established last year.

Awardees of Teacher Commendation Scheme

6D CHAN Jalie (2024-2025 Artist of the Year Awardee)

Receiving the Artist of the Year at the Convocation was an incredible surprise. Holding the certificate, I felt so proud that my passion for art had been seen and celebrated. It was a happy and unforgettable moment that I will always carry with me.

12E YEUNG Tze Wing (2024-2025 Student of the Year Awardee)

I must say that last year was both the most challenging and rewarding period of my secondary school life. Every late night spent preparing for public exams not only strengthened my resilience but also taught me the value of hard work. Every moment of doubt motivated me to go beyond merely being 'good enough' in each task. Ultimately, I realized that the obstacles I faced were stepping stones that helped shape a stronger, more confident version of myself. Every storm is a test, and I believe we can emerge from it even better.

Set up and awarded by the Schools Sports Federation of Hong Kong, China, the **Grantham Outstanding Student Athlete Awards** recognize and encourage the student athletes for their hard work, potential and significant achievements over the school year.

With the outstanding performances across different competitions in **Badminton, Table Tennis and Tennis**, five athletes were selected as the best athletes in their respective event.

9A 黃心悠

首先我衷心感謝學校對我的支持，為我築起踏上頒獎台的「成功階梯」；使感到非常榮幸和感恩。這個獎項不僅是對我過去努力的肯定，更是提醒我繼續向前的動力。我想對所有正在奮鬥的運動員說：你的努力，或許現在無人喝采，但只要堅持，今天的掙扎終會成為明天的實力。共勉！

12C 陳言俊

我第一次有機會獲得這個獎項，感到非常開心。我非常感謝我的家人、朋友和教練。能夠讓別人看到我的努力，我感到很欣慰。我會繼續努力訓練，爭取更好的成績。

HKSSF ANNUAL PRIZE PRESENTATION

Training started in the summer, competitions scheduled from September 2024 to May 2025, different teams and members sweated lots and fought hard in every session and match, to contribute each and important part of the overall scores for A-School.

Around **40 leaders** from different sports teams, who have excelled in different competitions such as the **grand slam title achieved by the Girls A, B and C Grade Badminton Team**, qualifications to **Jing Ying Team Tournament by the Boys A Grade Badminton and Volleyball**, as well as **U19 Soccer Team, and Overall Championship crowned by the Boys and Girls Table Tennis Teams in the Hang Seng All Schools Table Tennis Championship** represented our school to attend the annual HKSSF Prize Presentation in May 2025.

12A So Zi Seon Lewis and **10E Pang Oi Ki Vanessa** have also been selected to receive the **HKSSF N.T. Secondary Schools Outstanding Athlete Award** with their all-rounded performance in Softball, Badminton and Cross-country respectively. We will continue to show our team spirit and never settle for less attitude by setting higher standards to achieve in the future.

9B LAU Tsz Kiu Hermia

Participating in the HKSSF Annual Prize Presentation last year was a memorable experience. It celebrated my hard work and dedication, the recognition also motivated me to strive for excellence, and reminded me of the never-give-up attitude in order to achieve more in my life. It truly was a rewarding event.

9D FONG Pak Chun

Joining last year's HKSSF Prize Presentation was unforgettable. Witnessing our volleyball team earned the C Grade Champion (Division One) title filled me with immense pride. The ceremony wasn't just about a trophy; it celebrated our collective sweat, teamwork, and the spirit that made us the champion. It's undoubtedly an inspiring moment.

GRADE 6 PROMOTION and Graduation Ceremony

The 2024-2025 G6 Promotion Ceremony and 14th Graduation Ceremony 2025 were a joyful and memorable occasion honouring student achievements and fresh starts.

This year, the Class of 2025 presented a meaningful gift—a collaborative painting for the school tagged with "Every great idea begins with a simple pencil, our story begins at A-School." This creative endeavor reflects the graduates' spirit, unity, and appreciation for their journey together. Families, teachers, and students celebrated the diverse talents and resilient character nurtured at HKBUAS.

7A LIU Ching Lam

These events are a great way to remember our six years at this school and to hang out with our friends. The G6 Promotion Celebration cum Teacher Appreciation Lunch Banquet at Disneyland was a super fun day to make awesome memories. Most importantly, it's our chance to thank all the teachers who have taught us since we were little.

TSOI Yu Chun (Class of 2025)

I will never forget standing on the stage, seeing the proud smiles of my teachers as I received my graduation certificate. In that moment, my mind drifted back to the day I earned my first leadership award as the Campus TV chairperson — a reminder of how much I've grown since then.

Over these six years, I have collected countless unforgettable memories: filming with my peers, hearing the cheers during the Chamber Relay at the Athletic Meet, and performing piano before the entire school at AGT. Each experience has shaped me into who I am today.

School Manager **Professor Sandy Li** conferred promotion of our G6 students in the Promotion Ceremony.

Hong Kong LegCo member **Hon Lillian Kwok Ling-lai** graced the G6 Promotion High Table Dinner.

Mr. Eddie Ng Hak-kim, GBS, JP, Former Secretary for Education officiated at the G12 High Table Dinner.

2025-2026

Secondary Division Student Union and Chambers

Primary Division Student Union and Houses

Our students actively participate in various leadership programmes. Each year, the elected leaders of the Student Union and Chambers further develop these essential qualities by organizing activities that promote community and collaboration among peers. Our student leaders exemplify perseverance, diligence, and commitment, inspiring others and fostering a positive school environment.

Student Union	10A	WONG Lok Yin Joyce	Chairperson
	10D	NARAYANAN Vishwa	Internal Vice-Chairperson
	10D	HONG Cheuk Lun Marcus	External Vice-Chairperson

	10D	WONG Yik Ting	External Vice-Chairperson
Head Prefects	11C	YAU Hoi Lam	
	10C	YUNG Tsz Long	

10A WONG Lok Yin Joyce (Chairperson of Student Union)

As the new SU chairperson, I am honoured and excited to begin this journey. I will listen, advocate, and create a school experience where every student feels seen and supported. I pledge to lead with empathy and integrity, building a united and vibrant community for all at A-School.

Head Prefect

10C YUNG Tsz Long

Stepping into the role of Head Prefect is both an honour and a responsibility. I look forward to serving our school community with integrity, teamwork, and empathy. Together with my fellow prefects, I hope to inspire positive change and uphold the values that make our school a place we're proud of.

We foster responsibility and leadership through annual House Committee and Student Union elections, as well as interviews for selecting head prefects. These opportunities allow students to showcase their ideas and visions. This year, candidates energized their campaigns with creative posters and flyers at the school gate, promoting teamwork, communication, and an understanding of the democratic process.

6A LEUNG Hoi Yuet (Chairperson of Student Union)

As SU Chairperson, I organized inclusive events, fostering a supportive school environment guided by empathy from PERCCI values. By actively listening to classmates' ideas for improvement, I'll inspire collaboration, confidence, and growth through engaging initiatives that encourage everyone to thrive.

Head Prefect

6D CHEUNG Yan Yuk

As the head prefect, my role is to be a role model and to encourage others to be one too. To me, the most important PERCCI value is empathy, because if we put ourselves in others' shoes, we will understand other people's point of view. We should work together to create a positive school environment. I will try my best to encourage others by sharing my personal experiences and embodying the school's motto.

Dr. Arfeen BIBI

Associate Vice Principal (Academic affairs) cum Director of International Division

Hello, my name is Arfeen, which means "wisdom" (عارفین) in Arabic. This name resonates deeply with me, as I have always believed in the importance of seeking wisdom through reading. As Socrates once said, "The only true wisdom is in knowing you know nothing." This sentiment reflects my journey; books are gateways to new ideas and perspectives that enrich our understanding of the world and guide us in our personal and professional lives. I believe that wisdom is not just about knowledge, but about applying that knowledge thoughtfully, which is essential for growth and success.

From a young age, I had a passion for storytelling and creativity. I wrote my first book at the age of 13, igniting a lifelong desire to express myself through writing. In my later adult years, I was proud to write my first academic book, further shaping my view of education and the importance of nurturing creativity and critical thinking in our students. I encourage all our learners to explore their own stories and to embrace the journey of learning.

Traveling is another passion of mine. I cherish the opportunity to interact with people from different cultures, as each encounter adds a unique layer to my understanding of humanity. These experiences have taught me that diversity enriches our community and fosters empathy and collaboration.

I am also a spiritual person, and this aspect of my life resonates deeply with my love for nature. I find that spending time outdoors rejuvenates my spirit and enhances my connection to the world around me. Additionally, I enjoy meditating and practicing mindfulness, which help me cultivate inner peace and clarity. Nature, combined with these practices, is essential to my well-being.

As your Associate Vice Principal, I am excited to embark on this journey with all of you, fostering a community where wisdom, creativity, and connection thrive.

陳佩柔

副校長(小學部)

二十載春秋，歲月浮光，像年月贈予的銀杏。我在這座宏偉的校園裡，欣慰地見證著孩子們築起信心之舟，渡過青春的河流。那些方塊字不僅是橫豎撇捺，更是我們共同種下的種子——當孩子在作文課中寫出了睿智篇章，當看見孩子在朗誦時眼中的閃閃光芒，我的心一次又一次感到種子落地的悸動。

作為家校事務的橋樑，我與家長們一同見過凌晨的校園，主理過百項家校活動，每一頁都是我愛這學校、愛這校的學生與家長的印記。二十年足夠讓責任生根，讓牽掛長成林蔭，我更深信，學校不只我一人用心守護，校長、每一位老師、學生各家長、職員、工友，都一起用心守住這個家。

當畢業生回校探訪，正是人生回甘之時，回首上課點滴、暢談人生理想，常聽到「想當年我常常被你訓話……」，便覺所有付出都化作桃李春風。祝福 A-School，感謝您！感謝您讓我成長，因為教育最美的模樣，不過是讓每個相遇的生命，都在彼此照耀中成為光。

REN Chuangjie, Jake

Scientist-in-Residence

My name is Jake Ren, and I am honoured to serve as Scientist-in-Residence in A-School. I would like to take this opportunity to share a little about myself and my educational philosophy.

I am originally from mainland China and my teaching approach is deeply rooted in what I call *first-principles thinking*. This method encourages us to strip away assumptions and surface-level understanding, and instead seek the most fundamental truths of any subject. From there, we use logical reasoning to reconstruct knowledge and solve problems. In my experience, this approach not only deepens comprehension but also fosters true intellectual independence.

I take particular pride in having applied this mindset successfully in high-stakes environments. I have twice placed in the top two in global AI competitions—once as champion and once as runner-up. These intense contests served as powerful validations of how first-principles thinking can provide a decisive edge, even among the world's most talented problem-solvers.

Beyond academics, I am an avid snowboarder. This sport demands not only physical stamina but also a deep understanding of physics and body mechanics. To carve effectively on snow, I must consciously apply pressure through my centre of gravity onto the board—a process that requires constant, precise adjustments to my posture. Much like solving a complex problem, progress in snowboarding comes from returning to foundational principles and refining technique through deliberate practice.

Whether in intellectual pursuits or physical activities, I believe the consistent application of first-principles thinking is what enables meaningful growth. Therefore, I encourage my students to embrace diverse challenges, experiment with different problem-solving strategies, and always ask, "What are the core truths here?" If this mindset resonates with you and helps you learn more effectively, then my sharing has fulfilled its purpose.

Finally, I want to express how truly fortunate I feel to work with the students at A-School. They are consistently respectful, intellectually curious, creative, and remarkably adaptable in their thinking. It is both a privilege and a joy to guide such talented young minds.

鄭兆康劍擊中心 Zheng Kang Zhao Fencing Centre 1/F, Secondary Division

Renovated from our previous staff room, with an area of about 216 square metres, and the professional advises from **Mr. Zheng Kang Zhao (鄭兆康先生)**, the **head coach of Hong Kong, China Fencing Team (香港劍擊隊總教練)**, we are glad to have another new and quality venue for supporting the school's sport development.

The **Zheng Kang Zhao Fencing Centre** has four pistes while two of them are set up and meeting competition requirements with electronic scoring devices installed. The centre is spacious and up-to-standard for primary and secondary school team training, as well as foundation courses and OLE lessons for beginners. We can also host matches at the centred piste during important and significant events and competitions.

With the home court, we are confident to nurture new and potential fencers in the years to come, for representing A-School and sustaining the top position in the interschool competitions and more importantly, equipping them to compete in the world stage for Hong Kong China in the future.

The Zheng Kang Zhao Fencing Centre was remodelled with the donation from Kum Shing Group to support our school's physical education.
